Mrs. W. A. Johnston entertained the West Side Forestry club at its April meeting Thurdsay afternoon, with a number of guests. Mrs. J. M. Brown entertained with Mrs. Johnston, and they were assisted by Mrs. T. E. Dewey and Mrs. D. O. Coe. Mrs. J. C. Emahizer, president of the club, presided at the meeting.

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will

### HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not at regular intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain relievers, which give temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, take anti-kammia Tablets, and the results will be satisfactory in the highest degree. You can obtain them at all drugglists in any quantity, 10c worth. Sic worth or more. Ask for A.K Tablets.

## SICK-HEADACHES

Sick-head ache, the most miserable of all sick-nesses, loses its terrors when A-K Tablets are taken. When you feel an attack coming on, take two tablets, and in many cases, the attack will be warded off. During an attack take one A-K Tablet every two hours. The rest and com-fort which follow, can be obtained in no other

At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; tr'e a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean for the luncheon the nut dishes each contained the shell of an English walnut in which was a clipping from the witnesses of the luncheon.

The club makes a study of trees and plants, native and foreign, and subjects of plant life and cultivation, and along with their study they do a good deal of practical work in assisting in beautifying public grounds. They are responsible for the conversion of dump heap into what is now willow Park, and the little enclosed resting places at the entrances are the gifts of the club. They interest themselves in various public and civic affairs and are prominent in club affairs and are prominent in club
